Education

Maharaja Surajmal Institute Of Technology   Aug 2020 – Aug 2024
Bachelor of Engineering GPA: 8.22/10   *Janakpuri, Delhi*

Experience

VectoScalar Technologies | *Software Engineer*   (Jan 2024 – Present)
LENS (British Petroleum) - Enterprise Document Management System *(React, TypeScript, Vitest)*

- Engineered a scalable document management platform using **React** and **TypeScript**, supporting **500+ enterprise users** and improving workflow efficiency.
- Defined a robust **state management architecture** to maintain consistent data flow across complex UI components.
- Introduced **responsive and accessible UI patterns**, reducing user drop-offs by **20%**.
- Delivered **80% unit test coverage** using Vitest, resulting in a **50% reduction in production bugs**.

Dehurdle - Mental Wellness Mobile Application *(React Native, TypeScript, REST APIs)* [Link]

- Drove development of a **React Native** wellness application featuring **5+ gamified modules** and **100+ Play Store downloads**.
- Integrated **secure authentication**, onboarding, and user dashboards to improve engagement and retention.
- Architected **real-time leaderboards** and 6 interactive mini-games to boost user participation and motivation.
- Launched **Buddy Flow**, enabling social connections and shared progress tracking for collaborative habit building.

Letscrap - Scrap Collection & Recycling Platform *(React, React Native, Redux, Google Maps API)* [Link]

- Re-architected the application to support **role-based access control (RBAC)**, reducing maintenance effort by **30%**.
- Integrated **Google Maps API** with live geolocation tracking, improving pickup efficiency by **25%**.
- Established a centralized **React Admin dashboard** to monitor 5 core KPIs, cutting report generation time by **30%**.
- Improved offline reliability using **Redux Toolkit** and **Redux Persist** for low-network environments.

CordLife - Unified Lab Test & Diagnostics Platform *(React, Redux, REST APIs)*

- Created a unified diagnostics platform integrating multiple lab partner APIs for test discovery, comparison, booking, and report synchronization.
- Enabled **price comparison and discount workflows**, allowing users to select the most cost-effective lab options.
- Added **location-based lab search**, secure report viewing, and downloads to enhance post-test user experience.

Universal Adventures | *Android Developer Intern*   (Jul 2022 – Sept 2022)
- Integrated **RESTful APIs** using **Retrofit 2.0** for a team management application, improving data synchronization and responsiveness.
- Developed **3 new feature modules** including auto-dialer functionality and resolved **12+ critical bugs**.
- Ensured compatibility across **Android versions 8.0–13**, improving application stability across devices.

Technical Skills

Frameworks: ReactJS, React Native, Redux, Tailwind, Next JS
Languages: C, C++, JavaScript, TypeScript, HTML, CSS
Developer Tools: VS Code, Git/GitHub, Postman, Cursor, AWS S3

Achievements

Solved **500+ Data Structures and Algorithms** problems on LeetCode
LeetCode Contest: Achieved **557th** rank among **34,000+** participants in a coding contest.

Resume Review

Your Resume Score
78/100
This score is calculated based on the variables listed below

Tone & Style	Strong	85/100
Content	Strong	75/100
Structure	Strong	88/100
Skills	Good Start	70/100

✅ ATS Score - 82/100

Great Job!

This score represents how well your resume is likely to perform in Applicant Tracking Systems used by employers.

✓ Strong keyword alignment with MERN stack technologies including React, JavaScript, TypeScript, and REST APIs
⚠ Add MongoDB, Express.js, and Node.js explicitly in the technical skills section to match job requirements
⚠ Include Elasticsearch in skills section as it's mentioned in the tech stack requirements
⚠ Add a brief mention of any exposure to Generative AI, OpenAI APIs, or related concepts if applicable

Keep refining your resume to improve your chances of getting past ATS filters and into the hands of recruiters.

Tone & Style   ✓ 85/100   ⌄

Keep refining your resume to improve your chances of getting past ATS filters and into the hands of recruiters.

Tone & Style   ⊘ 85/100

- ⊘ Professional and achievement-focused language
- ⊘ Consistent formatting and presentation
- ⚠ Reduce technical jargon density
- ⚠ Add more collaborative language

⊘ Professional and achievement-focused language
The resume uses strong action verbs like 'Engineered', 'Architected', 'Integrated' and quantifies achievements with specific metrics, which demonstrates impact effectively.

⊘ Consistent formatting and presentation
The resume maintains consistent bullet point structure, font usage, and section organization throughout, creating a professional appearance.

⚠ Reduce technical jargon density
Some bullet points are overly technical and dense. For a junior role, focus more on learning ability, collaboration, and fundamental skills rather than complex architectural decisions.

⚠ Add more collaborative language
The job description emphasizes working under senior guidance and collaboration. Include more language about teamwork, learning from seniors, and contributing to team efforts.
